Mock tests

Comprehensive Curriculum

THEORY AND PRACTICAL LEARNING FOR:

- **Listening** - In the TOEFL Listening module, students will engage in exercises focusing on the comprehension of healthcare-related audio materials, including patient consultations and healthcare professional discussions. Skills such as identifying key information, understanding specific details, and interpreting patient needs will be emphasized.
- **Reading** - The TOEFL Reading section evaluates students ability to understand and analyze academic texts. It focuses on skills like identifying main ideas, understanding key details, recognizing vocabulary in context, and making inferences. Passages are often drawn from university-level topics, ensuring students are prepared for academic challenges.
- **Writing** - The TOEFL Writing section assesses students ability to express ideas clearly and coherently in written English. It includes two tasks: an integrated task, where students write a response based on reading and listening, and an independent task, where they present their opinion on a given topic. Strong grammar, vocabulary, and organization are essential for success.
- **Speaking** - The TOEFL Speaking section evaluates students' ability to communicate effectively in English. It includes four tasks: one independent task to express personal opinions and three integrated tasks combining reading, listening, and speaking. Clear pronunciation, fluency, and logical organization of ideas are key to performing well.

Your Success Is Our Priority:

Every student at SevenMentor gets personalized guidance, Mentorship, and ample opportunities to address individual questions and concerns. All our sessions are designed to be engaging, interactive, and tailored to your learning pace, ensuring you grasp each concept with clarity
